

The benefit to be tendered Billy Gallagher, the pugilist, next Wednesday evening should be attended by every lover of sport of that character in Los Angeles.

A large majority of those present at the recent mill, which resulted so disastrously for Gallagher, conceded him to be a superior man to his antagonist. All those who so thought will be contributing to the benefit fund, not only get a good evening's entertainment for the small sum of 50 cents, but place in Gallagher's hands a substitute for the purse which many believe he would have won had the accident not occurred.

To a man who follows the fortunes of the prize ring for a livelihood, a sum like that which constituted the purse hung up for the Burns-Gallagher fight means a great deal. No one will gainsay the statement that Gallagher has done much for his branch of sport while in Los Angeles, not only by the mainly way in which his own bouts have been conducted, but as an instructor while acting in that capacity in the employ of the Athletic Club.

Many of Gallagher's admirers are impatient for the time when his broken arm shall have been sufficiently healed to permit him to again appear before the public as of old, and no small number look forward to the time when he shall be admitted to the best man in his class on the Pacific Coast.

One of the contestants of the wrestling match to be given at the Athletic Club is Dolph Cole of the Sacramento Athletic Club, a man who is perhaps but little known here, except by the frequenters of the L. A. C. room. Cole has considerable reputation as a wrestler and boxer in the north, having been defeated in a wrestling match, but once, and will no doubt give a good account of himself Wednesday night.

#### News of Cycling.

If there is no rain late in this week, the union run to Baldwin's ranch will come off next Sunday, as was arranged for last Sunday. The start will be from the Athletic Club and the time 9 o'clock. All wheelmen and wheelwomen in the city will be welcomed on this run, although if more than a few hundred turn out there will not be food enough within ten miles of the Hotel Oakland to supply dinner promptly to all.

The East Side Cycling Club will have a run to Rubio Canyon on Sunday, January 21, weather permitting. The club is planning to make this run a wheelmen's excursion to Echo Mountain and Alpine Tavern, if low rates can be had. The East Siders are thinking of making this run a wheelmen's excursion to Echo Mountain and Alpine Tavern, if low rates can be had. The East Siders are thinking of making this run a wheelmen's excursion to Echo Mountain and Alpine Tavern, if low rates can be had.

The annual century run to South Riverside and return, under the auspices of the East Siders, will be held on February 21. Instead of the usual score for record, a schedule will be prepared and those going ahead of the pacemakers will be rewarded as far as the dinner and souvenir medal are concerned. A small fee will be charged to cover the cost of the race.

Charles Rose, the road racer, has gone to Santa Barbara to take charge of a cycle repair shop there. The Crown City Cycling Club of Pasadena, under Lieut. Black, will have a run to Santa Ana next Sunday. Some of the Crescenta of this city may join them.

Many wheelmen are at Randsburg and Johannesburg, having ridden there from this city and nearby towns. A Pasadena wheelman, who is on record on gold fields on his wheel last week and reported the roads good part of the way, Eugene Weaver and Harry Minnick, well known members of the Los Angeles Road Club, have a good claim at Randsburg and at present are working a dry washer near The Needles.

Ma. Wood, who is en route from Portland to the City of Mexico, leaves this week for Arizona on his wheel. He has made stops at Pasadena, Santa Monica, San Diego and the orange country, writing up all these cycling centers for the Olympic at San Francisco. He is expected to be in Los Angeles from here by a local wheelman.

The annual number of the Referee of Chicago contains portraits of several country roads yesterday and many lady riders were among them. One party consisted of several racing men led by a three-man machine, which was steered by Wilson Haines. The roads are in splendid shape, the heavy rain having packed them down. There is some mud, but not as much as would be expected.

Dave Shaffer, the eastern trainer, reached San Francisco Saturday and has decided to remain at the Velodrome track there instead of going to San Jose. He will have charge of Charles S. White, the San Francisco crack, George Bovee of Texas, Stevens of Iowa, McFarland of San Jose, and several other famous racers. He is undecided on the record-breaking question, as yet, but will probably try for some of the records.

Fritz Lacy is arranging to go after the amateur records on the Pasadena track, under the management of Frank Lyman, the Chicago trainer. The match race is being talked of to take place after Lacy goes for the records. As soon as he becomes a professional he will be eligible to meet Hill at Pasadena, and it is said that the prize will be a thousand dollars, with the contest depending on three track races. There will be some women bicycle races at Agricultural Park next Sunday in connection with a tug-of-war. Local wheelmen do not favor women races, and this form of sport is discouraged by the League of American Wheelmen. The races will be black-listed by the L.A.W. already.

There will be a blue ribbon meet at Pasadena next Saturday as a benefit to Frank Lyman, the well-known trainer of racing men, who has worked so hard to build up the Pasadena track. The races will consist of six events, three for amateurs and three for professionals. There will be attempts at fast time with good pacing, and Lyman will spring several new innovations in coast racing. The

Terminal will make a special rate for the racing men and their friends in this city, which will be a great convenience, as the Terminal Railroad runs right to the bicycle track.

The cycling shows and the national assembly of the League of American Wheelmen are attracting the attention of the present of the wheelmen in all parts of the country.

Mrs. Charlotte L. Bolton of Brooklyn, N. Y., is touring in Southern California, and at present is in Los Angeles staying at the Westminster Hotel.

Mrs. Bolton is a wheelwoman of considerable note, having the distinction of being the first lady cyclist in New York City. She is a consul of the American Wheelmen, and the president of the Lady Tourist Cycle Club of New York.

Mrs. Bolton was on her wheel yesterday trying the Los Angeles drives and although the wheeling at present is anything but good, on account of recent rains, she is delighted with the city.

#### HORSE RACING.

**Foxhall Keene's Ideas Concerning the Amateur Jockey.**

Foxhall Keene doesn't think the amateur jockey is given enough attention. In an article in an eastern paper he says:

"I would like to see two or three amateur stakes opened each year at winter racing, something like the following: For three-year-olds and upward, at a mile, to be ridden by amateurs, with, say, \$2500 to the winner. I know of at least a dozen very capable amateur riders that would all take the liveliest interest in a race of this kind, and with all due deference to our professional jockeys, I think many of our amateur riders are equal to the present time. I think many of our amateur riders are equal to the present time. I think many of our amateur riders are equal to the present time."

Before closing these lines, I strongly urge the cooperation of the press, feeling that if they will give us well-written articles on the sport alone, the Amateur Jockey Club will cope with the malefactor, many more will be induced to have a day's racing, who now patronize one of the other wretched branches of our American pastimes."

#### RACING AT HOT SPRINGS.

Capt. H. O. Price has a scheme in hand with a syndicate of wealthy turfmen and capitalists to invest \$100,000 in a winter race track at Hot Springs. Price is now at the springs negotiating with property-owners and hotel men, and if he arrives at Hot Springs the scheme will materialize. The syndicate proposes to build a fine track, a splendid grandstand and stable room for 600 horses. They guarantee to take 600 racers to the springs and race every day from December 15 to about March 15. They ask the citizens of Hot Springs to vote certain land and to subscribe \$2000 and \$1000 stakes to be raced for on the proposed track.

**REGULATING SIZE OF PURSES.**

The Keystone and Southern Racing associations of Maryland, intend to adopt a novel method of regulating the size of their purses. The number of books in the ring is to fix the value of the purses. If there are ten book-makers doing business, the purses will be \$100 each; if twelve, \$150; if fourteen, \$175, and should eighteen books go on the purses will be \$200 each. By this plan the bookmakers will enter into a kind of lottery. This scheme is to be submitted to the horsemen before it is finally adopted. It has been favorably spoken of and seems to meet the horsemen's approval.

#### NOMINATIONS FOR THE GREAT FUTURITY STAKE.

The Kentucky Trotting Horse-breeders' Association, with headquarters at Lexington, Ky., is more than pleased with the second payments to the big Futurity for foals of this year, which are now weanlings. The list comprises 67 youngsters, and they are the choicest-bred lot that has ever been entered in the Futurity. All the celebrated sires and most of the celebrated dams are well represented.

It is impossible to give the breeding of this large number of weanlings in a short article. The national character of representation of the entries cannot, however, be understood by the mention of the largest nominators. The Cloverleaf farm of A. H. Moore, near Philadelphia, the home of the late Red Wilkes, and the greatest band of brood mares in the world, heads the list, with forty-three nominations. L. W. Harkness, Walnut Hill farm, Fayette county, comes next, with twenty-three, principally Robert MacGregor, and of royal-bred mares. Next is Palo Alto, the former speed nursery of the county, owned by grand old Beauville. Then comes J. H. Schult, Parkville farm, New York, with eighteen younglings. R. H. Harkness, near Lexington, Ky., has fifteen, and the Copper King, Marcus Daly, stays in with seventeen weanlings from Bitter Root range. Fred P. Alcott names from his Roundtop farm, near Nashville, N. J., sixteen by his grandly-bred young sires, Athol and Grand, and of royal-bred mares. Forbes of Boston pays for twelve, principally by the \$125,000 Arion, and out of his superb matrons. His list is headed by the little mis. Norton, by Arion, out of the former owner, Nancy Hanks, 204.

The homes of Kremlin, 2:37½, and Dictator are tied in next place, Allen farm and Ashland ranch each naming eleven weanlings. Patchen Wilkes farm, Lexington, has for the first time named ten choice ones, while Mrs. Stokes, virtually its fair proprietress, names a phenomenal weanling out of old Lane L., 2:19½, over her own name.

Suburban farm, Glens Falls, N. Y., swings into line with nine entries. McFarland, a grand breeder in the largest farm at Crescent Hill, Ky., is home for some of the best bred ones in the land, names eight. San Mateo farm, on the sunny slope of California, makes eight entries, which is modest, considering that it has taken nearly \$10,000 to produce the seven. Lexington, the Empire Stud of William Simpson names seven. Angus Sinclair, the genial Canadian horseman and breeder, owner of the Highland farm, names six good ones by Wilton and his own stallion, Wilbrindon.

Axtell Williams comes in with seven young Athletons, all out of good mares. Harry Lewis gives his horse, Wilton, a six-time chance for the money. Hillside farm, Mamaronock, N. Y., enters six youngsters by Regal Wilkes, and H. L. Asher, the wealthy owner of the Highland farm, names six good ones by Trevaillon, Alfred O. and other sires.

Five each are named by Ed Ayers, Duckers, Ky.; W. F. Garth, Huntsville, Ala.; Glenlake farm, Faywood, Ky.; William M. Halstead, New York; which is not given the English name.

The following have named four each: T. C. Auglin, Lexington; Horatio N. Bain, Poughkeepsie, Tenn.; Caton farm, Joliet, Ill.; W. E. Emerick, Cleveland, O.; Millen Griffith, San Francisco; Keystone farm, Omaha; Riverside farm, Berlin, Wis.; Col. R. G. Stoner, Paris, Ky.; Summit view farm, Verona, N. Y.; John L. Swiger, Muncie, Ind.; Village farm, Aurora, N. Y.; and Hon. W. J. Whitte (the Wind O.).

Dozens have named two and three each. Director's Flower, 2:20, Monroe Salisbury's great baby campaigner, has her first-born in the list, in company with weanlings out of the dams of Robert J., 2:02½; Rubenstein, 2:05; Beattie, 2:06½; Lockhart, 2:07½, and other cracks.

#### AMERICAN HORSES ENTERED.

The new great stake that will be run for first in 1900 at Sandown Park, Eng., called the Century Stakes, has closed with the eminently satisfactory number of 215 subscriptions, including several from American owners. The event closed for new foals and yearlings to be run as four and five-year-olds. The value is \$50,000, and the distance two miles.

Pierre Lorillard enters four—Chestnut colt, foal, by Pontiac, out of Sprinter; bay colt, foal, by Sensation, out of Equality, and two yearlings, Eos and Bayard II., the breeding of which is not given the English name. J. J. McCafferty enters the chestnut colt, yearling, Gaila Day II., by Rayner, out of Gaila, and the bay colt, Howland, by Hindoo, out of R. C. The last, by the by, named in honor of S. Howland, Lord William Berezford, Mr. Lorillard's partner, names the yearling Day Star.

#### HIDALGO'S GOSSIP.

**The Prattle and Chatter of the Winter Tracks.**

Well, they closed up Ingleside with a very fair record for the two weeks and transferred the sport over to Oakland, where the weather is much pleasanter, if it be pleasant at all. Oakland is surely the faster track, but whether it will be as good as Ingleside in rainy weather, is still an open question. I have seen a great many race courses in various parts of the world and I have been but one Ingleside in that respect.

Oakland always was something of a place for surprise parties, and it kept up its reputation this time. The defeat of the historic vindictive Mount McGregor by Buckwa, at a mile in 1:39½, was such a stunning blow to Col. De Burgh's Jockey Club that it has been called the Senatorship, by the way, that he could not believe his eyes, and matched the race over again, to be run at the same weights and distance on Saturday. The result was the same, and Buckwa won in 1:40½, not so fast as the other race, but fast enough to confirm the result of the first race. Buckwa is a bay gelding by Buchanan (who won the Kentucky Derby in 1882) and belongs to the tall and pensive Purser.

A great surprise came the next day in the shape of a victory for the chestnut pony, Little Bob, who won 40 to 1 in most of the books and 50 in some of them. Then came a victory for Lost Girl in 15 to 1 opening price, at a mile closing. Adam Adams, a top-heavy favorite at 6 to 5, got off badly and the mare beat him every foot of the way. In 1890, another top-heavy favorite, for H. L. J. Rose of this city by me, was a brown mare called Ricochet by Musket. She was an enormous mare, the back of her neck like a mast.

Mittrilleuse. At Mr. Rose's sale in 1891 she was sold for \$2500 to Clay & Woodford of Kentucky. The late Colonel Howland by Hindoo, in the English Derby of 1893. He is a full brother to Savin, who won the Derby the past season, for whom an offer of \$1000 was recently refused.

Justice during this season have brother and sister first and second in a race. The first case of this kind was about six weeks ago, when Horatio N. Bain, a top-heavy favorite, was beaten by his brother, Ostler Joe. The second case was on Wednesday last at Oakland, when Sweet Pavardale beat her brother, Preston, in a two-year-old race. The Naglee Stakes. Both these last two are by Faverdale (who beat Sator in the Junior Champion of 1883) out of the Empress of Sweet Home, who also produced that great handicapper, Maj. Domo.

Midlothian is a yearling ahead of all other winning sires in California, both for 1896 and so far as this year goes, up to date. The winnings of his progeny, since the first of the October last, cannot be very far from \$7500. Midlo and his brother, Midlight, having won over \$100,000 in purses and stakes. John Mackey, who has given \$100 for him in 1893. He got have since won over \$100,000 in purses and stakes.

Daylight, belonging to a merchant of Portland, Or., has recovered his old form; on Thursday he carried the Pacific colors to the fore in a very fast race.

Judge M. Lewis Clark, whose name has been a terror to crooked jockeys and owners for the past thirty years, is a very sick man at the Auditorium Hotel in Chicago. He is about 70 years old and his recovery is very doubtful. Cash Day, a really good horse in any company, is so lame that it is feared he may never face the starter again. He is owned by Charles Carmichael of Chicago.

The horse killers are at work again at Oakland, killing yearlings. One gave a race-odds, nominally, at Oakland last Saturday, and out of the eleven that started, I want to bet there were not more than five actually two years old by the dates of foaling. This is the way that good colts get knocked to pieces for the sake of a few fast ones.

This is the reason we have no more good horses for all-aged events at long distances. Where are Coupou, Fleur de Lis, Portmex and San Mateo, to say nothing of the peerless Crescendo? All butchered to make a Hebrew holiday.

#### HIDALGO.

#### ATHLETIC CLUB NOTES.

**Attractive Features of Gallagher's Benefit-Handball Notes.**

The members of the Los Angeles Athletic Club are arranging to give Prof. Billy Gallagher, who broke his arm in a recent exhibition with Jim Burns, a grand benefit in the large gymnasium next Wednesday evening. An interesting programme of boxing, wrestling, gymnastics, music, etc., has been arranged and those who attend are assured an interesting evening. Among the principal attractions of the evening will be a four-round exhibition between Big Jim Jeffries and his brother, Charles. Both men are in the heavy-weight division and are in the best of condition.

Another interesting bout will be one of four rounds between Al Acevedo and Brady Young, who is a light and clever lightweight. Joe Cotton, the well-known and popular colored boxer, will spar four rounds with Frank Scott in addition to the Louisville. There will be a wrestling bout between Dolph Cole of the Sacramento Athletic Club and O. J. Murphy of the L. A. C. Ben Bogner and Pay Stephenson will also appear in an entirely new and original turn. Music and story-telling will go toward making a fine evening's entertainment.

#### THE HANDBALL COURT.

John Brink and F. A. Garbutt defeated M. M. Shields and Walter McStay in a match game of handball last Wednesday.

Another match game has been arranged between Bouton of the Olympic Club and McGinnis against Brink and Garbutt, to be played this week. The handball tournament will commence next Monday. There are twenty-one entries up to date, and by the time the entries close, next Saturday, there will probably be in the neighborhood of thirty.

#### LOVELL AGAIN ON DECK.

John Lovell is again seen about the club, and is looking as hale and hearty as ever, since his recent sickness.

#### POORBALL BANQUET.

The Los Angeles Athletic Club will give a banquet to their football team at John Brink's Saddlecock restaurant on Tuesday evening, January 26.

#### TRAMPERS' ANNEX.

The trip of the Trampers' Annex to San Juan Capistrano was postponed until a later date, owing to the recent heavy rains. The postponement was a disappointment to many of its members, but they hope to be able to avail themselves of Mr. Mendelsohn's hospitality some time in the near future.

#### BURNS-COTTON MILL.

No definite arrangements have yet been made in regard to the prospective boxing exhibition between Cotton and Burns. There seems to be a hitch between the principals, and the club in regard to terms.

#### THE CLUB WILL TAKE PART.

The Athletic Club has arranged to give an exhibition at the Manufacturers' display in Hazard's Pavilion next Friday evening.

#### DIRECTORS' MEETING.

The board of directors held its regular monthly meeting last Wednesday evening, at which there were twenty-one applicants for membership voted.

A statement of the club's finances showed the organization to be in a most prosperous condition.

#### Francis Wilson's the Winners.

Yesterday's baseball game at Athletic Park was won by the Francis Wilsons by a score of 7 to 6. Their opponents were the Los Angeles team. The score would suggest a good game, but the game was not very interesting. From the expressions of several spectators the exhibition was very tame indeed.

Leland and Knox did the fielding for the Los Angeles boys, and Leland, Early and Thomas the batting. Whaling, Knell's fielding and Whaling's good work at the bat added materially in winning the game. Whaling was placed behind the bat at the commencement of the game, but he was injured and retired, Frank taking his place.

Considerable enthusiasm was caused by the five runs made by Los Angeles in the eighth inning. Early, which left them one score behind their rivals. In the last half of the ninth inning Leland hit for two bases, and prospects for a tie game were encouraging, but he was doubled out on Allen's fly to Wilson. The score is as follows:

#### FRANCIS WILSONS.

Seipulveda, rf.	AB	R	H	PO	A	E
Knell, ss.	5	3	2	4	1	0
Moore, 2b.	5	1	4	0	0	0

Los Angeles	0	0	1	0	0	0	0	0	0	1

#### SUMMARY.

Earned runs—Francis Wilsons, 1. Two-base hits—Early, 1; Leland, 1; Knott, 1. Double plays—Wilson and Knell; Krebs, Kaymer and Knott; Allen and Leland. Base on balls—Moore 5; Tyler 1. Struck out—Tyler, 1; Moore, 6.

Based on balls—Moore 5; Tyler 1. Umpire, Caldwell; scorer, Monroe. Time of game, 2 hrs. and 20 min.

#### SPAUDINGS VS. HORSESHOES.

The Spaulding baseball team beat the Horseshoes at Agricultural Park yesterday afternoon by a score of 28 to 9. The batteries were Farrow and Strangman for the Spauldings and Sherwood and Harris for the Horseshoes. The Spauldings play the Redondo team on the latter's home grounds next Sunday.

#### STANFORD VS. NINTH STREETS.

The Stanford baseball club again defeated the Ninth Streets last Saturday by a score of 19 to 12. Considerable enthusiasm was displayed by the followers of the opposing teams.

#### MONARCHS VS. SUNSETS.

The Monarchs scored 10 runs to the Sunsets 4 in a game between the two teams yesterday afternoon.

#### Sporting Notes.

Altamont, the veteran California sire, is as lively as a cricket at 22 years of age.

One thousand dollars was the price for a game cock in England a short time ago.

There were one dozen wild deer in Connecticut, according to the recent report of the game commission.

The dates for the fifth annual meeting of the Interstate Shooting Association are March 23, 24 and 25.

McGraw has been approached to coach the Johns Hopkins University in outdoor baseball during March.

Partridges are so thick at Tawas City, Mich., that two have been caught in the schoolhouse, having flown in the windows.

The Milwaukee Curling Club is the oldest of the kind in the kind in the United States, having been organized thirty-one years ago.

Columbia, Princeton, University of Oregon, Harvard, and Georgetown will be represented in the New Jersey Athletic Club's meet at Madison Square Garden, February 13.

Princeton and Yale have made up the differences in baseball, and have arranged two games, one at Princeton, June 8, and the other at Providence, June 2.

It is stated that \$5000 was collected last year in fines from those riders of the wheel who infringed the ordinance governing the rate of speed on Coney Island cycle races.

The first woman secretary of a trotting association is Miss Gertrude Williams of Taunton, Mass. She has been elected secretary of the Bristol County Agricultural Society.

Solly Smith, writing from Guttenberg, where he is training for his twenty-five round bout with Tommy White before the Boston Sporting Club, says that he is in first-class condition.

May 6, 7, 8 and 9 at the grounds of the St. Louis Fair Association, will be celebrated the twenty-seventh national festival of the North American

## An Unusual Opportunity

MESSRS. LISSNER & CO. offer a portion of their stock at substantially reduced prices, for a limited period. The wares affected are all desirable goods and proper in style.

Lissner & Co.'s object in offering these reductions is to weed out duplicates, to reduce over crowded assortments, and to prepare their stock for the reception of new goods later on.

Many articles have been marked down to cost price—some even less.

This is an unusual opportunity.

Goldsmiths, Silversmiths,  
Opticians,  
235 South Spring Street.

GRAND BOOK FOR YOUNG MEN CAN be had free for the asking—a book written by a physician of 30 years' experience in dealing with the failures, the weakness of young manhood. Its overflowing pages contain the secrets of the young man who has begun to see the evil of his early ways. It describes the wrong that is done by neglect of Nature's laws; it defines a means of recovery of many powers; it recites the grateful experiences of young men now strong and well; it is the story of progress from despair to happiness. Are you content with your lot? Are you certain that you are as strong of mind and body as you ought to be? If so, rejoice; if not, grasp the hand outstretched to help you.

There is hope for you here, no matter who has failed you. This cure comes from nature. It is natural, successful. But read the book, which is to be your guide. It is called: "Three Classes of Men." Its author is Dr. A. T. Sanden. The remedy. Dr. Sanden's Electric Belt, a famous cure, will be entered in the Suburban and other handbooks. At Yale there is but a single student. The university teams must meet Harvard for year. Every undergraduate regards it as a matter of college patriotism; that peace be restored with Harvard.

M. E. Fryer started the season last fall with two horses in training, and at no time did he have more than seven, and yet he managed to win forty-four of his season's races, however, should be much better with the material he will start with. There will be 26 classes at the Westminster Kennel Club's show. One of them will be four Maltese terriers. In the spaniel class alone nearly \$500 is to be offered. In the majority of the open classes the prizes will be \$15, \$10 and \$5, and in the large breeds the open classes will have four prizes of \$20, \$15, \$10 and \$5.

The Century Club of America has issued its tables of centuries, double entries and mileage for the year 1896, as follows: Minnesota, A. A. Hansen, Minneapolis, 21,053 miles; Pennsylvania, M. Keim, Sr., Philadelphia, 18,551; Colorado, Mrs. E. A. Rinehart, Denver, 17,737; New York, C. H. Shadlock, Brooklyn, 13,164; Illinois, R. E. O'Connor, Chicago, 14,176; Colorado, C. Wright, Colorado Springs, 14,100; South Dakota, T. W. Rae, Madison, 12,435; Indiana, E. S. Shenkenberger, Oxford, 41,651; Kentucky, W. A. Rubey, Louisville, 10,221; Missouri, G. S. Easton, St. Louis, 9769; Nebraska, L. T. Broderson, Superior, 9451; New Jersey, G. H. Garwood, Trenton, 9390; Iowa, J. A. Ballister, Ottumwa, 9389; Ohio, M. E. Gifford, Cleveland, 8771; Maryland, S. M. Warren, Baltimore, 8750; Colorado, L. C. Wahl, Colorado Springs, 8299.

Beer is now bottled in Germany in syphons in the same manner as aerated waters.

TO SEE SOUTHERN CALIFORNIA You must go around the Kite-shaped track. Use descriptive matter Santa Fe office. Use Smith's Dandruff Pomade. The only cure for dandruff, itching scalp and falling hair, guaranteed to give satisfaction, by all druggists. Price 50 cents.

Heating Houses, Churches, etc., with hot air made, specially by F. A. Brown, No. 123 East Fourth street.

#### DR. A. T. SANDEN.

204 S. Broadway, Cor. 2nd, Los Angeles, Cal. Office Hours—8 a.m. to 6 p.m.; Evenings 7 to 8; Sundays 10 to 1.

## CIRCULATION.

Sworn Weekly Statement of the  
Circulation of the Los  
Angeles Times.

STATE OF CALIFORNIA, COUNTY OF LOS  
ANGELES, SS.

Personally appeared before me, Harry  
Chandler, superintendent of circulation of the  
Times-Mirror Company, who, being duly  
sworn, deposes and says that the daily bona  
fide editions of the Times for each day of  
the week ended January 15, 1897, were as fol-  
lows:

Sunday, January 10, 1897	21,800
Monday, " 11, " "	18,400
Tuesday, " 12, " "	18,500
Wednesday, " 13, " "	18,500
Thursday, " 14, " "	18,500
Friday, " 15, " "	18,500
Saturday, " 16, " "	18,500

Total for the week..... 120,910  
Daily average for the week..... 17,273  
(Signed) HARRY CHANDLER,  
Superintendent of circulation of the Times-Mirror  
Company, sworn to before me this 16th  
day of January, 1897.

(Seal) J. C. OLIVER,  
Notary Public and for the County of Los  
Angeles, State of California.

NOTE.—THE TIMES is a seven-day paper.  
The above aggregate, viz., 120,910 copies, is  
sworn to by us during the seven days of the past  
week, would, if apportioned on the basis of a  
six-day average, be 17,273 copies, or 17,273  
copies for each week-day of 20,151  
copies.

THE TIMES is the only Los Angeles  
paper which has regularly  
published sworn statements of its  
circulation for each day of the  
past week, monthly and yearly, during  
the past several years. Advertisers  
have the right to know the NET  
CIRCULATION of the medium which  
carries their business, and this  
TIMES gives them correctly, from  
time to time.

## THE WEATHER

U. S. WEATHER BUREAU, Los Angeles, Jan. 17.—At 5 o'clock a.m. the barometer registered 30.12; at 5 p.m., 30.21. Thermometer for the corresponding hours showed 41 deg. and 59 deg. Relative humidity, 5 a.m., 52 per cent.; 5 p.m., 45 per cent. Wind, 5 a.m., northeast, velocity 7 miles; 5 p.m., south, velocity 2 miles. Maximum temperature, 64 deg.; minimum temperature, 42 deg. Character of weather, clear. Barometer reduced to sea level.

## The Times

## ALL ALONG THE LINE.

Santa Ana is either a very fortunate or a very well managed little city, judging from the report on financial matters made by the City Clerk. Taxes are not very high, and yet necessary improvements are made, and there is money enough in the treasury to pay current expenses for a year.

There is nothing small about Pasadena, and when she starts out to do good she embraces a big slice of the world in her benevolence and missionary efforts. Her latest outbreak is in the form of a "Social University," which is to undertake the trifling task of solving the social question for the whole nation and dispelling all ignorance.

The Non-Partisan League for better local politics nearly broke up in a row at San Diego on Saturday night. Certain elements, apparently afraid of good government, worked to cause the discord and to prevent a possible improvement in the local government of the city, which many people desire to see brought about. These disagreements may be the result of the following Little Billie Carlson to slip into the Mayor's chair.

The citizens at Santa Monica have kindly feelings for the veterans at the Soldiers' Home, who bear honorable marks of service for their country, but they think the people who contribute the children and pay the taxes should have the say in school district matters. In national and State affairs they say, let the old soldier boys vote, and God bless 'em, but in a school district where the home members can outvote the other voters two to one, they think the situation is out of proper adjustment.

Since the return of sunny days activity in the local oil field has been resumed with its wonted vigor. Oil men do not take kindly to the proposed councilmanic legislation, which has in view the limiting of the oil-producing territory in such manner that no well shall be operated within 2000 feet of any of the city parks. Nothing is said in regard to proximity to the city's public schools, hence it may be assumed that the Board of Education may enter the arena of oil production without fear of selling its kindergarten pants or bemuddling its intellectual head. Should the educational department decide to become a producer of crude petroleum it might do well to begin in the Union-avenue school grounds. Every foot of the large, slightly grounds is within the confines of the richest oil sand in the Los Angeles field.

## LETTERS TO THE TIMES.

**Objections to the New Charter.**  
LOS ANGELES, Jan. 17.—(To the Editor of The Times.) Permit me through the columns of your valuable paper to criticize some of the provisions of the proposed new charter. I believe that the proposed concentration of power in the hands of the Mayor will be a magnificent opportunity for corrupt and unscrupulous men to control the city. The reasons given for the change seem to me to be entirely insufficient. In the charter catechism this explanation is given: "We elect nine city officials, each independent of the others and responsible to nobody in particular. . . . When things go wrong it is impossible to locate the blame; each lays it on the other," etc.

Now I deny this. I say that if the streets are neglected everybody knows that the Superintendent of Streets is responsible and not the Mayor. If a man's property is assessed too highly he would certainly complain to the Assessor and not to the Mayor. And if responsibility cannot be located by the people how is the Mayor going to locate it? Is he going to discharge the whole force every time anything goes wrong?

As for their being responsible to nobody in particular, they are responsible to the people and I claim that our elective officers are just as efficient as our appointive officers. I claim that the record of our city clerks, our assessors and our city engineers is just as good as our chiefs of police, who are responsible to a police commission. I claim that our County Superintendent of Schools, who is responsible to nobody in particular, is just as faithful in the discharge of his duties as the City Superintendent of Schools, who is responsible to the Board of Education. And I appeal to history to vindicate my claim.

As for the "city fathers," it is certainly easier for the push to nominate and elect a man than it is to elect a man. The push have elected mayors as well as other officials in the past. I see no reason why they should not do so in the future.

That the people will exercise more care in the selection of the Mayor, his powers are increased, I deny. Men will still be swayed by partisan prejudice, influenced by unscrupulous demagogues, hoodwinked by wily politicians, bribed by promises of private gain. Human nature will be just the same under the new charter as it is under the old. **LORIN A. SWAN.**

**Death of A. M. Greene.**  
Earl Rogers yesterday received a telegram announcing the death of his father-in-law, A. M. Greene, of Rochester, N. Y. Mr. Greene spent last winter in Los Angeles, and will be remembered by many. He was a descendant of Gen. Greene, the Revolutionary hero, and of the old Cuyler family of Albany. He was one of the best-known grain-brokers in the East, and had made many large fortunes in wheat speculation. Like most persons of his occupation, Mr. Greene was a very quiet man, but some of his most famous deals on the Chicago market were engineered by him from his office in New York. Mrs. Rogers was with him during his last illness, and will return to Los Angeles within a few weeks.

**Railway Changes.**  
The retirement of George T. Nicholson from the Santa Fe system to accept the position of general passenger agent of the Frisco is followed by the rumor that General Passenger Agent John J. Byrne of the Southern California will go over to a similar position with the Santa Fe line. Mr. Byrne left for Chicago on the same day that Mr. Nicholson's resignation was announced to take effect February 15.

## OIL NEAR THE PARKS.

## PROPOSED LEGISLATION WOULD CONFISCATE PROPERTY.

Producers Disclaim Malice—Owners of Handsome Homes Greedy for Wealth—Down in an Old Shaft—Beans in an Iron Well.

The past week has witnessed but little activity in the local oil field. Heavy rain, however, has been in development, and while not causing a suspension of oil transportation from the district, made heavy work for men and beasts engaged in the traffic. It was necessary that the oil should be conveyed to points of distribution, and the suddenness of the downpour found consumers "short" on supply, hence men and teams plodded through muddy thoroughfares and descending torrents from early morn till late at night.

The clouds rolled away the latter part of the week, and steam was gotten up Saturday at a large number of wells in the western extension, and development is again being prosecuted with wonted vigor. The "drying-out" process and "laying-on" of belts was prolific and profuse, but the benefits that will accrue to the industry by reason of the rains is appreciated by those engaged in oil production, hence the ill-humor was short-lived.

Oil men are again discussing proposed Councilmanic legislation, having in view limitation of territory, as outlined in another department of The Times a few days ago. According to that statement, friends of the measure favor prohibition of production within 2000 feet of any of the city's parks. Some of the producers are bold in their declaration that such proposed legislation could not be enforced if enacted, and that the present opposition to the life of the field is but the furtherance of the old spirit of opposition to the industry. It is declared that prohibition of development and operation of all oil wells within 2000 feet of any of the city's parks would confiscate more than one-half of the producing wells in the district, as large numbers are already much nearer Second-street, Westlake and Echo parks.

The charge that wells have been drilled and operated through spite for the purpose of depreciating the value of property in any section of the city, is emphatically denied, and the accusers are asked to site a single instance. Men engaged in the industry declare that their business is as worthy of protection and encouragement as any other branch of mining, and that any unreasonable restrictions placed upon it would result in heavy financial loss to the city. And it is further asserted that prices for the fuel product would speedily advance from present quotations to \$2 or \$3 per barrel, the shipping point of coal shipments from the North and Mexico. It is predicted that the virtual wiping out of an industry that yields an annual revenue to this city of over two-thirds of a million dollars, would be quickly felt, and that the city would soon see its error, but repentance might come too late to rescind the once fallen financial giant.

The Doheny rig is at work pumping out an old shaft in the cañon about one thousand feet north of Westlake Park. An effort was made a few weeks ago to develop an oil well at this site, but after drilling to a depth of 200 feet, the oil sand was penetrated, it being very near the surface, but a few feet in thickness. It was fully demonstrated that the oil sand had practically "pinched out," and that the property would not pay operating expenses, thus leading to the abandonment of the site. Rumor says that the shaft now being pumped out was excavated nearly forty years ago in a quest for coal. It is 140 feet in depth, and was developed with pick and shovel, the earth being raised to the surface by means of a windlass. The top diameter is about ten feet, and the shaft tapers inward to working room for a man as the depth increases. During the past few days several hundred barrels of oil have been pumped from this shaft, and it was thick black stuff, and so heavy that it would sink in water. One could almost cut it into blocks with an ax or spade, yet it burned well in furnaces after having been steamed.

Mystery still surrounds the experimental well at Ivanhoe. It has been drilled to a depth of nearly 1000 feet, and had not the beans anomalously swelled upon the workman, more would have been known regarding the existence of oil in the well. For the benefit of the uninformed, it may be stated that the heat the beans were soaked and dropped into the bottom of the well for the purpose of "packing off" the water. The workmen wanted the beans to swell, but had not calculated accurately upon their ability in that direction, and as a consequence all efforts to swell the casing have failed. The drillers declare that they have penetrated 200 feet of superior coarse oil sand. They will make further efforts to overcome the difficulties and should they be successful the public may soon know the extent and nature of the oil sands.

One of the North wells on Temple street, near Victor, has been producing for about eighteen months, and has a record of 15,000 barrels. At present prices such wells would be more valuable than moderately comfortable homes, and this in a measure accounts for encroachment upon desirable residence portions of the city. Instead of valuable property being degraded by outside development and malice, in many instances the owners of handsome homes have despoiled their beautiful grounds in an effort to possess a wealth-producing property.

The bright sunshine has returned and oil development will continue with its recent remarkable activity.

**Lost Child.**  
A little girl named Ellen Holt got lost yesterday and was taken to the Police Station, where her father called for her and took her home.

## FLOATING FACTS.

The greatest taxpayer is tobacco. In the last twenty-seven years this product has paid a tribute of \$1,000,000,000 to Uncle Sam alone.

Oakland, Cal., which formerly paid \$500 a month to get rid of its garbage, now receives a revenue from its disposal.

Sir James Grant predicts that the gold output of Canada, especially of British Columbia, will astonish the world at no distant date.

The loss of property caused by the tornado at St. Louis in May last has been estimated by expert assessors to have been \$10,239,000.

In Norway girls are ineligible for matrimony until they have earned certificates for proficiency in knitting, baking and spinning.

A new illustrated Bible is to be issued soon from a Glasgow press. It will contain 125 views taken from photographs of the Holy Land.

Liverpool is the most densely populated city in Great Britain, having a population of 114 per acre, including the docks and quay.

**Well-considered Moves.**  
[Washington Times:] She. You seem restless, George. From the window seat you moved to the rocker; now you are moving to the sofa.

He. Yes; I am trying to work out a problem for chess.

She. Chess? What problem?

He. Why? I'm trying to mate in two moves.

113-115 N. SPRING ST.

We have sold nearly every make of corsets. We have had some extra qualities for \$1. We have had corsets that were almost perfect in the fit, and yet we now have a corset for \$1 that has points about it that no other corset ever possessed. It is made of better materials. More work. Better work and better fitting. It is a corset that any lady will say when she examines it, "There is a corset that will fit perfectly." Do you want one? Try a pair on. See how finely it shapes itself to the figure. You will buy it sure.

We have another new corset for 50c a pair. Still better than any 50c corset we have ever sold. It is made over the same forms as the \$1 corset. Not quite so many bones. Just as well made. Good materials. Try a pair if you want something good. A corset that will wear well and give good service.

A few extra fine corsets for \$1.25. Some as good as the usual \$2 quality. We have added a new line. We have added this line for the reason we think we have added better qualities for the same money we have been selling other makes for. Don't ask for the brand but look to the quality. That is what you are interested in. A new extra long corset. A very fine quality for \$2.

Remember we are selling a lot of night gowns that have always sold for \$1.25 to \$1.75. Now \$1. A mixed lot, but some excellent values in them.

## PASADENA.

## ORGANIZATION OF THE SOCIAL UNIVERSITY.

A Work Begun in Pasadena by Which the Coming of the Millennium is to be Hastened—Sunday Outings—City Delinquent Tax List.

PASADENA, Jan. 17.—(Regular Correspondence.) There have been no new thing under the sun in old King Solomon's time, but very there is now, and Pasadena is the place where it originated. A few of the wise people of this city have banded themselves together for the purpose of hastening the advent of that happy period in the history of this cruel old world when the lion and the lamb shall lie down together, without the necessity of the lamb being inside the lion. In other words, it is proposed to found a social university, whose scope and purposes shall be as follows:

"First—To put the social question on a new basis before the public, outside of politics and passion, by inaugurating a thorough and comprehensive study.

"Second—To sift its underlying principles to the bottom, ascertaining what changes are required to secure social peace, equity, and just opportunities and environment for all; and to bring these facts and conclusions before the entire nation, so that the grounds for the present social ignorance and misunderstanding will be removed.

"Third—To cause the American people to realize the danger which threatens the country from its ignorance and neglect of the social question, and to exert their energies with this danger in view, in good faith, to find adequate remedies.

"Fourth—To bring about harmony and good feeling among all classes in the labor of discovering these remedies, and loyal willingness to make what ever efforts and sacrifices are necessary to apply them.

"Fifth—To lead forward to the action that shall be needed under the circumstances, in order to practically assist in putting the remedies agreed upon in operation."

The university is non-religious in the sense of excluding religious discussion and controversy, and politically non-partisan. The general organization shall be known as the Social University of America, the first organized branch of which is the Pasadena Social University. Among its founders are such well-known reformers and sociologists as Rev. M. W. Webster, Messrs. Seward, Swift and others. Several meetings have already been held and the work is now well begun, although many details remain to be worked out.

Under the university and affiliated with it shall be many societies which have not yet been given birth, such as the Industrial Justice Society, Social Ethics Society, Political Evolution Society, Historical and Present Crisis Society, Public Opinion Society, National Union or Anti-Class and Social War Society, Statistical Society, Economic Theory Society, and Sunday Lecture Society.

It will be seen by this that the founders have cut out a good deal of work for themselves. They are imbued with zeal and so sanguine of the merits of their cause that they expect many accessions to their ranks as the plan and objects of the organization become known.

Meeting will be held weekly, for public instruction, and almost the whole population of Pasadena passed at least a portion of the day basking in the pleasant sunshine. The streets were crowded with vehicles filled with people, especially those running to Altadena, did a good business. The air was clear and the view of the mountains and from the mountains was grand beyond description.

More than one hundred people went over the Mt. Lowe road, and as many more had gone up Saturday. The two sleighs at Alpine Tavern were in great demand. The snow is two and a half feet deep there and packed solid in the road. Those who were fortunate enough to secure a seat in one of the cutters pronounced it equal to any sleigh-ride ever enjoyed in the East. The Mt. Lowe road is in splendid running condition, and a trip over it is probably more enjoyable while the snow lasts than at any other time.

Entertainments were given three deep on the upper part of the Mt. Wilson trail. The telephone line, which was down since the storm, was repaired yesterday, and communication can again be had with the summit. Several parties have made the ascent of the mountain, and the storm, but the trail is so blocked with snow and fallen trees that it will be several days before beasts of burden can go to the top of Mt. Wilson.

LYCEUM LEAGUE.

The High School Lyceum League held its first debate and literary entertainment at the new Odd Fellows' Hall Saturday evening. There was a large attendance and the exercises were of a highly interesting nature. One of the features was the initiation of a number of neophytes. The ceremony was both instructive and entertaining.

The question for debate was "Resolved, That the President of the United States Should be Elected by Direct Vote of the People." Ray Spaulding and Harry Briggs took the affirmative side, while Louis Anderson and Lyle Wynn argued for the negative. The young men acquitted themselves nobly in each side, and the decision was made by the decision of the judges, which was that the affirmative excelled in point of delivery and the negative in argument. The judges were: Prof. Walter Edwards, A. L. Hamilton and Mrs. Jennie Coleman of Throop Institute, Miss Catherine Kase of the L. Evans, and other features of the programme were a flute duet by B. O. Lacy and George Darlington; an essay on "Queen Catherine of Aragon" by Miss Ethel Traphagen; vocal quartette, Messrs. Rice, Irwin, Hendricks and Rice; duet, vocal, Wendell and Hawley Taylor; recitation, Miss Kennedy.

Refreshments were served at the close of the entertainment. Meetings will be held hereafter on a weekly basis.

DELINQUENT TAX LIST.

The delinquent city tax list was filed with the City Clerk yesterday and will be laid before the Board of Trustees for action tomorrow. It foots up

\$6885.55, as against \$4266.15 last year. There was an increase of about \$10,000 in taxes this year, however, so that the delinquency is no greater this year than last, comparatively. About \$500 of the delinquent amount has been paid since the list was made up. A 5 per cent. penalty now attaches, and the property will be advertised commencing January 29, and sold in due course of time unless payment is made before the date of sale.

## PASADENA BREVITIES.

Dean Peck addressed three large audiences here today, speaking at the First Congregational Church, in the morning, the Presbyterian Church in the afternoon and at the Friends' Christian and Missionary Alliance, of which he is field secretary, has been greatly advanced here by his efforts. Christians of all denominations turned out to hear him and were quickened in their zeal for the evangelization of the world.

Pasadena will be well represented at the Los Angeles Home Products Exhibition on Tuesday, W.C.T.U. day. Contributions intended for the W.C.T.U. booth should be sent to Temperance Temple, Los Angeles, before Tuesday. William M. Campbell and H. Harvey of Los Angeles took luncheon at the Green today.

The long-delayed overland Santa Fé trials, which has been overdue since Friday afternoon, is now scheduled to arrive here in three sections, the first at 7 o'clock tomorrow morning, and the rest soon afterward. There are 160 passenger aboard, many of them destined for Pasadena.

The sacred concert at the Universalist Church this afternoon was largely attended, and it deserved to be, on account of the excellence of the programme rendered.

Prof. Manning, the "frutitarian" host, will lecture at G.A.R. hall Monday evening, after which he and his disciples will indulge in a fruit banquet.

Mrs. Ira O. Smith and daughter, Mrs. McDaniels, drove out from Los Angeles today, and while here were entertained by Mrs. E. L. Monahan.

The Midwinter Times, 48 pages and colored cover, 189 illustrations; full of interesting matter. For sale by local agents; price, 10 cents.

Mrs. J. A. Byram, Mrs. I. N. Perry and Mrs. C. C. Barnes of Chicago are among the recent arrivals at the Green.

Mr. and Mrs. Samuel Orner of Chicago were at the Green yesterday. E. W. Freeman of Coronado is registered at the Green.

Do not waste cast-off clothing. "Economy is the road to wealth," also enables those already wealthy to help the destitute. Save from moth and mildew your partially-worn garments that can be made over into children's clothing. Anything of this description left at The Times branch office, No. 7 East Colorado street, Pasadena, will be useful in supplying those much in need. No matter how badly worn, it will be useful to those with no money to buy new.

You can have the Los Angeles Daily Times and Frank Lane's Popular Monthly for one year for only \$1 more than the regular yearly subscription price of The Times. Hadn't you better think over this offer and have your first magazine this month.

## SAN BERNARDINO COUNTY.

A Prominent Citizen Dies—Sale of a Fine Residence.

SAN BERNARDINO, Jan. 17.—(Regular Correspondence.) William Gird, a member of the bar of this county and for some time representative of his uncle, Richard Gird, in this city, died at 2:15 o'clock this (Sunday) morning of consumption, after an illness of a year's duration. He leaves a widow and two children. Mr. Gird was 39 years of age, a native of Indiana, and was very highly esteemed among those who knew him.

SAN BERNARDINO BREVITIES.

A norther has prevailed throughout the valley today, and the great bed of snow on the mountains has given an unpleasant chilliness to the atmosphere.

Mrs. Theresa Bowers has purchased the home place of Dr. S. C. Bogart on Sixth street for \$4000. The lady's husband is a prominent local physician, and he has found a cure for asthma in the climate of this city.

CLAREMONT.

CLAREMONT, Jan. 17.—(Regular Correspondence.) There is great rejoicing in Claremont over the good fortune of the community, which has secured \$25,000 of the college, to be applied on an endowment on condition that the college should be raised to \$100,000 before January 15, 1897. A week ago all were very anxious, as there remained to be secured about \$9000. It was resolved to be otherwise, and the subject for consideration at the prayer-meeting Thursday evening, but just before the meeting closed, a telegram from President Baldwin announced that the \$100,000 had been secured.

It is needless to say that the meeting closed with a shout of triumph. Several thousand dollars in addition were sent just at the last to be used only on condition that the amount should not be otherwise expended.

There has been a great increase of the number of students the present year, even in the face of the general hard times. The college, which is recognized in all the leading colleges of our country. Students from all parts of the state, and from the end of every term and take their place in the universities North, or in the colleges East just where they would be if they could. The Department of Agriculture of the University of California writes to the president that the students at Pomona are equal to the best at the university, and take equal rank with those of Williams, Amherst, and Dartmouth.

President Baldwin, who has just returned from a long absence in the northern part of the State, will speak in the Claremont church tomorrow upon "Pomona College." The afternoon and evening of next Tuesday will be devoted to a general thanksgiving in view of the successful completion of the endowment.

There will be given in the college next Monday evening a farce to be acted by the students under the direction of Miss Alma Campbell, instructor in elocution at Pomona College.

At the Riverside Institute the subject of scaly-bark gum disease and lightning-strikes has already been considered at length. It was thought to be of so much importance that the matter was referred to Prof. Cook, who instructed in a paper to report if possible from the government to thoroughly investigate these two diseases. A letter from Prof. Newton B. Pierce, of the Department of Agriculture, division of vegetable physiology and pathology, now located at Santa Barbara, Cal., has already been received with the scaly-bark gum disease and is investigating it as fully as his time will permit. He further promises to visit Riverside at an early day and make a thorough examination of the trees suffering from these diseases. Prof. Pierce desires to see them as much as possible, and he can also talk the diseases over with the growers who are suffering from them. He says: "I can, and will, then give them such suggestion respecting treatment as may seem best."

## ORANGE COUNTY.

## THE SANTA ANA CITY TREASURY IN GOOD CONDITION.

Third Quarterly Apportionment of School Funds in the School Districts—News Notes from Town and County.

SANTA ANA, Jan. 17.—(Regular Correspondence.) The condition of the city treasury of Santa Ana has not been better at this time of year for many a day, and the treasury report of the City Clerk, made to the Board of City Trustees, will show: Receipts in treasury to January 4, 1897: Cash in general fund.....\$6714.09 Cash in street fund.....2851.71 Cash in water works fund.....354.82

Total.....\$9956.62 Amount received from Central.....\$636.15 Amount collected for taps.....\$2.00

Total.....\$10594.77 This report shows that the treasury on hand to safely see the year through in current expenses in addition to some improvements planned for, to be made during the current year.

The tax rate has not been exorbitant and yet a good many substantial improvements have been made the past year, among which was the paving of several blocks on Fourth street with asphaltum.

## SCHOOL FUND APPOINTMENT.

The third quarterly apportionment of school money derived from the State school funds, based upon \$2.50 to the teacher and \$2 each on the average daily attendance, has been made and is as follows: Alamitos, \$328; Aliso, \$184; Anaheim, \$3046; Bolsa Grande, \$498; Brea, \$134; Buena Vista, \$134; Chino, \$310; Cypress, \$134; Delhi, \$322; Diamond, \$322; El Modena, \$690; El Toro, \$328; Fairview, \$302; Fullerton, \$992; Garden Grove, \$134; La Habra, \$134; Laguna, \$334; Magnolia, \$322; Mountain View, \$664; Newport, \$322; Newport Beach, \$314; Ocean, \$322; Orange, \$483; Orange Grove, \$322; Peralta, \$312; Placentia, \$328; San Juan, \$10; Santa Ana, \$5810; Silverado, \$290; Tustin, \$322; Tustin, \$1714; Westminster, \$690; Yorba, \$612.

## ORANGE COUNTY BREVITIES.

The Newport Wharf and Lumber Company and the Santa Ana and Newport Railroad Company held their annual meeting Saturday, in the company's offices in Santa Ana, and elected the old board of directors. James McFadden is president of both companies and M. Smiley is secretary of the lumber company and auditor of the railroad company. Robert McFadden is general manager of the lumber company, and vice-president of the railroad company.

The Fullerton Tribune says that over two inches of rain fell this week, making the total for the season about 10 inches, which is a trifle over 50 per cent of the average for twenty years. Last year up to January 15, at 1.82 inches, and the average for the past twenty years is seven inches. So it is seen that the present fall is one of the best.

The insurance agents in Santa Ana are organizing a board of fire underwriters. A meeting was held a few days ago and a temporary organization was effected by electing George H. McLinton temporary president and F. W. Mansur, temporary secretary. Another meeting will be held in the future, when rules will be adopted and a permanent organization effected.

The Rev. Percy Weber, one of the most noted missionaries and pulpitis speakers in the United States, will be in Santa Ana Monday of this week and will preach at the Church of the Messiah in the afternoon at 2 o'clock; also in the evening at 7:30 o'clock.

Orange-growers in this valley are now beginning to receive orders for eastern shipments. The market for the orchards the past week have been in such a condition on account of the heavy rains that picking had to be suspended.

Jackrabbit hunts are now becoming common on the plains in the Santa Ana Valley and the fortunate person who has one or more of these animals in his hounds appears to have more than his allotment of exciting fun.

Jacob Markwalder and a man named Roswell, who have been charged with stealing a chicken, were brought before a Justice of the Peace and their examination set for Tuesday, January 19.

The Altamira Chapter of the Episcopal Church in Orange has been recognized by the election of Mrs. U. H. Spencer as president, and Mrs. E. H. Ivey as secretary.

On account of the rainy weather those holding tickets for glass souvenir pictures will have time extended to February 1st. The photographer, The Midwinter Times, 48 pages and colored cover, 189 illustrations; full of interesting matter. For sale by local agents; price, 10 cents.

Miss Connie Pos of Orange will leave in a few days for Baltimore, where she expects to reside with her father, Rev. W. de R. Pos.

The King's Daughters of Santa Ana will give their entertainment Thursday and Friday evenings of this week in Spaulding's Hall.

The ladies of the Methodist Church in Orange are arranging to hold an art loan exhibition in the near future. The County Board of Education met in Santa Ana yesterday. Only routine business was attended to.

## SANTA MONICA.

The Soldiers' Home—School District Question—Would-be Burglar.

SANTA MONICA, Jan. 17.—(Regular Correspondence.) Sentiment here seems to be strongly in favor of the bill recently introduced in the Legislature providing that no territory occupied as a soldiers' home shall form part of any school district. The Santa Monica common school district and the Santa Monica High School district are the same. They include the Ocean Park and vicinity. Santa Monica Cañon and the Soldiers' Home. Figures have on the votes cast at the more recent school elections show that the Soldiers' Home voters have only a small minority of the district by more than two to one. Yet no tax can be levied on the Soldiers' Home property, and the common school district is a burden to the community.

The Pomona Farmers' Club is to meet Monday afternoon in Odd Fellows Hall. The Claremont Pomona Club will meet at the home of Frank L. Palmer.

Rev. Philip W. Toledo, O., who was recently elected pastor of the Baptist Church here, has, as yet, not been heard from as to his acceptance or refusal of said charge.

On account of demand for seating capacity, the opera-house had to be recalled to recitation Sunday night for the evangelistic meeting.

The Midwinter Times, 48 pages and colored cover, 189 illustrations; full of interesting matter. For sale by local agents; price, 10 cents.

lieved that nobody could thereafter, with any hope of success, prosecute a movement to shut down the movement from voting on national, State and county issues.

Several whales were seen spouting off shore this afternoon. The surf at this time of year seen to enjoy it. Five-minute plunges are usually followed with beneficial results.

Officers of Court Neptune, No. 99, Foresters of America, were installed Friday evening, by Deputy Grand Chief Ranger Harry Oppenheimer, assisted by Dr. P. S. Lindsey, who served as herald.

No overland mail has been received at the postoffice since Thursday evening. A glut of it is expected Monday.

United States coast-defense vessel Monterey received a number of visitors today. The tug usually kept at Port Los Angeles is away, and the tug Calabasas, a Submarine wharf and the vessel were limited.

The Supervisors will receive bids next Wednesday for construction work on the new road to Calabasas. Subscriptions from citizens will need to be paid promptly, so that the money can be turned over to pay for Santa Monica's share of the work.

Mr. Haworth of Santa Monica sustained a serious shock resulting from a runaway Friday. It is feared he is internally injured.

Mrs. C. J. Boyd, late of this city, but recently of Los Angeles, on Seventh street near Central avenue, was severely burned by a gasoline explosion Friday. It is feared she may not recover. She is a native of Mrs. E. E. Carter of Santa Monica.

Several members of the local baseball club have resigned because of certain differences with the management. A ball is to be held on Washington's birthday under the auspices of Court No. 99, Foresters of America. A. Mooser, J. J. Carrillo and George E. Williams compose the Committee of Arrangements.

The City Trustees will meet Monday afternoon. Action is expected on the proposed Ocean-avenue bridge south of railroad avenue. It is not unlikely there will be some developments in other matter of more than ordinary interest.

Miss Beale Husband of Grand Rapids, Mich., accompanied by her friend, Miss Sophia Williams, is visiting her niece, Mrs. W. A. Lindsay.

It is announced that some additions are to be made to the Episcopal choir and that it is to be surprised.

The High School trustees will meet at 10 a.m. next Friday at the clerk's office to consider plans and specifications for the proposed High School building, as submitted by several architects who are working on them.

A "geographical" social was held at the Congregational Church, Thursday evening. About thirty of the people present either carried or wore articles representing various places, like a one star for Texas and a saw for Arkansas, lima beans for Lima, and so on. The programme comprised a piano solo, a recitation by Miss Grace Elliott, and a pantomime in which several people participated.

An attempt to enter the house of Archie F. Johnston on Fourth street at 2 o'clock this morning. Under the name of Mrs. Johnston, a burglar entered a ground-floor window of an unoccupied room. He was about to enter when he was heard. Mrs. Johnston went out with a light and he fled. Mr. Johnston went out the rear door and pursued the intruder into the street, but he was not seen.

Mr. Johnston's plotter got out of reach of Mr. Johnston's pistol. The burglar was of average size and wore dark clothes, dark hat and pointed shoes.

Officers of Silver Wave Rebekah Lodge, No. 199, I.O.O.F., were installed Friday evening by Mrs. Annie Liddell, district deputy. The lodge has a list of names: Acting past grand, Mrs. L. H. Stevens; noble grand, Mrs. R. K. Tanner; grand secretary, Miss Millie Wheeler; financial secretary, Mrs. Rose Brasher; treasurer, Mrs. W. L. Muller; R. S. to V. G. Mrs. E. V. Barackman; L. S. to V. G. Mrs. Alice Wiser; inside guard, Mrs. L. H. Stevens; outside guard, Mrs. O. Edengab; chaplain, Mrs. L. L. Steele. Refreshments and a social followed the ceremonies.

The Midwinter Times, 48 pages and colored cover, 189 illustrations; full of interesting matter. For sale by local agents; price, 10 cents.

## POMONA.

Interest is awakening in the Coming City Election.

POMONA, Jan. 17.—(Regular Correspondence.) The near approach of the city election in Pomona has already set the leaders of the high license men on their feet. They are now making party on the other to casting about among their rank and file as to who shall form their respective tickets for the various offices. Especially is this so in the case for City Recorder, City Attorney and City Marshal. It is only a few weeks until the election, and the preliminary campaign will soon formulate and operations commence in earnest.

Reuben Phillips, who has been dogged by the fine old law, has been a fixture in Pomona ever since his village days, and was so generally known and respected that he was called upon to go Saturday afternoon, and was given a decent burial.

The house of one of this city again worked the third degree. Brother Bain of Glendora was among the visitors present. With the accession of Brother Dowling, Pomona Lodge has upon its rolls 102 members.

A strong Santa Ana breeze was blowing to the east of this valley Sunday.

The announcement is made that the nuptials of Rudolph Janssen and Miss Lillian Lattin, both well-known young people of Pomona, will be celebrated in this city on Wednesday, January 20.

At the next meeting of the Pomona Farmers' Club is to meet Monday afternoon in Odd Fellows Hall. The Claremont Pomona Club will meet at the home of Frank L. Palmer.

## SAN DIEGO COUNTY.

## GOOD TIMES PROMISED AT THE COMING LOCAL CAMPAIGN.

Non-partisans Fail to Agree—Fair Agreement of a Deserving Wife. Elaborate Preparations for the Midwinter Carnival.

SAN DIEGO, Jan. 17.—(Regular Correspondence.) Non-partisan politics don't go here—at least in local politics. A number of leading citizens got together last night for the purpose of trying to start a good, clean municipal ticket for the April election. At the first pop all hands began to express different opinions. George W. Marston favored a resolution which his brother-in-law, Charles Hamilton, opposed. One Morgan became disgusted and left the hall. D. C. Reed remarked: "I am not a sore head. When I am beaten I know it, and lay down my arms."

The water fight is over and I am beaten, and I know it. Mr. Reed was rather severe on some of the more earnest citizens of this city in stating with his usual emphasis that the non-partisan movement was a water scheme. He did not give the name of these schemers. A committee will report the names of possible candidates in February. D. C. Reed is reported to be itching for the nomination of Mayor and many people hope that he will get it, even though his alleged affiliations with the Southern Pacific and with Mayor Carlson may cost him votes if he runs. Carlson the way, as of New York.

Old-timers here know Mr. Carlson's campaign methods will say that before long Billy will return from New York, get out his usual brass bands, announce that he has a full understanding with Huntington or the Vanderbilts or some other railroad magnates, for the immediate building of a road eastward, and again ask the people for their votes. And, as likely as not, Billy will again be elected. The coming local campaign promises more fun than a circus. Hordes of people want office at almost any price.

## THE COLBURN SECRET.

In the settlement of the estate of the Rev. M. F. Colburn, formerly a preacher in this city, in which the former wife of Mr. Colburn seeks the property, attorneys denied that the wife abandoned the husband. Therefore the following letter was produced:

"SAN DIEGO, Feb. 8, 1892.

"Whereas, I, Iola M. Colburn, am about to leave the home of Rev. M. F. Colburn with the intention of returning to the same, I hereby agree from this date onward to contract no bills in his name or make him in any way responsible for my debts.

(Signed) IOLA M. COLBURN.

## SAN DIEGO BREVITIES.

The death record includes Adam Hammond, aged 60, at Chula Vista, January 15; Mrs. E. R. Pierce, aged 72, on January 16; Sarah E. Flinn, aged 83, on January 16; Charles E. Case, aged 51, on January 16; Charles E. Keisling, aged 32, at South San Diego, on January 16.

Plans for the Midwinter Carnival on February 22 are progressing. The warships to be present are the Oregon, Adams, Albatross, and possibly others. The illuminations on the bay at night will form a gorgeous spectacle.

Grand Marshal Hanna, a light and Deputy Grand Master Ada Madison installed the officers of the Silver Gate Rebekah Lodge, I.O.O.F., on Friday night.

The Midwinter Times, 48 pages and colored cover, 189 illustrations; full of interesting matter. For sale by local agents; price, 10 cents.

Work on the Sefton Block at Fourth and C streets will begin within a few days. This will be one of the largest blocks in the city.

Joquin Fuentes will be tried tomorrow on the charge of killing B. Contreras at Hedges last August.

Schooner Minna has arrived from San Island with twenty tons of guano.

Ship Arcon from Australia with coal is reported outside, seventy-three days out.

Assistant District Attorney Utley is dangerously ill, the result of the grip.

H. Snyder and family have arrived at Coronado from New York.

## AZUSA.

AZUSA, Jan. 16.—(Regular Correspondence.) The capture of ferocious wild beasts is becoming frequent. Capt. Gordon recently caught a large California grizzly bear, and after he had killed a half-dozen hens. The bear was forty-two inches long from the nose to the tip of the stubby tail. It weighed thirty-seven pounds and was captured less than a half-mile from town. The Baker brothers, who are at work in the mountains, have captured a grizzly bear, and he was caught by the toes with a common fox trap, and dispatched by a Winchester. He had killed a burro the night before and was caught on his second trip, to feast upon the carcass. The heavy snows will persist this winter, but will continue heavy animals still more frequent.

The large safe at Engelhardt's drug store at Glendora was opened yesterday morning and the contents found uninjured. The safe had not been tampered with, which upsets the theory that the big explosion and the conflagration following were caused by burglars.

The annual report of the secretary of the Azusa Irrigating Company shows the expenditures of the company to have been \$29,425. At the annual meeting last Saturday, W. R. Powell, A. F. Griffith, H. D. Briggs, G. T. Brown, E. Parker, J. W. Marshall and W. J. Cox were elected directors for the current year.

R. S. Futhey has just purchased property on Center street, on which he will erect a machine shop, within the next thirty days. He is now at Sumnerland, preparing to move his family and business to Azusa. The shops will be devoted to gasoline-engine building, general repairing of shafting, construction of pumping plants and possibly will include a small planing-mill. He has already contracted to have a gasoline engine into the local printing office to run the presses.

Of the 18,900 feet of conduit tunnel to be put in by the San Gabriel Power Company, 1127 feet are completed. This work has been done by the Smith Bros., who have been working on the three hot tunnels for two years to hold the filings of the power company good till the big proposition could be inaugurated.

The Midwinter Times, 48 pages and colored cover, 189 illustrations; full of interesting matter. For sale by local agents; price, 10 cents.

THE King of Pils is Becham's-Becham.

We positively cure Varicose, Piles and Rupture in one week, and you need not pay us a dollar until you are cured.

Cor. Third and Main Sts., over Wells-Fargo. Private entrance on Third St.

**SANTA BARBARA COUNTY.**

**ARRIVAL OF A SEALING SCHOONER WITH MANY SKINS.**

Capt. Bartle Reports the Largest Catch of the Season—A Hunter Lost—Game Warden Wanted. The Town Clock Still Fails to Go.

SANTA BARBARA, Jan. 17.—(Regular Correspondence.) The sealing schooner Louisa D. of San Francisco, Capt. Sam Bartle, is in the harbor for a few days. The Louisa D. has been cruising along the coast and around the islands for several weeks, and the hunters have already taken about 150 skins, the largest catch for the season to date so far as known. All other schooners that have reported place their records below the 100 mark. Capt. Bartle claims Santa Barbara as his home, for he spends his time here when not at sea. He has sailed extensively in Alaskan and Japanese waters; he reports that he will not take the Louisa D. to Japan this winter, but will continue his hunt in this vicinity for the present, probably going north later.

The Louisa D. has a sealer that lost a hunter while cruising off Point Arena several days ago. The man was knocked overboard by the sudden swinging of the derrick, and was never seen again. Four boats were lowered at once, but to no purpose. The schooner hopes to find another hunter in this port.

**A GAME WARDEN WANTED.**

The board will be asked to appoint a game warden for this vicinity. At the January session, the board declared the office vacant and sign
